

Packaging Collection by Mauser

What could be more convenient?

You call, we collect.

Our handy collection service frees up your valuable space and time. The global network offers you collection of used and emptied steel & PE drums and IBC's from all common manufacturers.

We combine cost-efficient solutions with safe & fast handling and customize the collection service to your needs and demands. In order to provide the most sustainable and CO₂ efficient service we keep the transport distance short.

Our collection service is easy to use. You will find the most relevant information on our website to start your collection program. Start today!

Get more out of your drums and IBCs

Reconditioning is an effective, high-quality solution that extends the life cycle of industrial packaging.

Mauser can recondition your used drums and IBC's even if they were originally not produced by us.

We're dedicated to helping our customers achieve true sustainability at scale. That's why we offer a wide range of washed and rebottled IBC's and reconditioned plastic & steel drums. We provide various specifications and sizes for both UN and non-UN applications.

Global collection program with local & customized solutions for industrial packaging

Our collection program reduces your CO₂ footprint

Your drums and IBC's will be reconditioned or recycled for raw material

Your partner for all types and brands
